THE GOVERNMENT OF NORFOLK ISLAND

MEDIA RELEASE

Burnt Pine cattle-free zone to be expanded

Minister for Finance Neville Christian said today that over the past few weeks the Norfolk Island Government has been contacted on many occasions with the suggestion that new cattle grids intended for the Waste Management Centre road be installed in Douglas Drive instead, and that the cattle grid near the Leagues Club be relocated to Peters Highway.

“I have consulted with and obtained the consent of all affected residents”, Mr Christian said.

The location of the grids has been marked on each road and in the absence of compelling reasons against the proposal, installation will commence one week from now.
