

THE GOVERNMENT OF NORFOLK ISLAND

MEDIA RELEASE

Cattle grid update

Minister for Finance Neville Christian announced today that he had revised the position announced last week about the Burnt Pine cattle-free zone.

“After considering a range of views in respect of the proposed cattle grid relocation, I have decided that the best course of action is to adhere to the original plan,” Mr Christian said. “This means that we will install double width cattle grids at the entry to the Waste Management Centre Road, prior to its resealing”.
