MEDIA RELEASE

Revised manuals for heavy and light motor vehicles

The Registrar of Motor Vehicles, in conjunction with the Authorised Inspectors, has compiled a new vehicle inspection manual for both light and heavy vehicles.

As these revised manuals will now be used as a reference for all future motor vehicle inspections it is suggested that all owners and or operators of motor vehicles acquaint themselves with the requirements of the relevant inspection manual.

Copies of these manuals may be viewed on the Norfolk Island Government website www.info.gov.nf or at the Registry office.

Further enquiries may be directed to the Registrar at Kingston on phone 23691.
