PASSENGER PROCESSING ARRANGEMENTS
NORFOLK ISLAND AIRPORT

Further assessments and evaluation of the passenger processing procedures carried out in conjunction with arriving passengers indicate a need to increase the level of surveillance on goods arriving at Norfolk Island to address the increased risk of prohibited goods being imported.

Changes which have been made will result in an increase in the number of passenger's luggage being subject to examination.

With cooperation from passengers and compliance with the requirements of the laws that govern the importation of matters such as drugs, plants, fruits and firearms it is expected that there will be no delays for passengers who have complied with the entry requirements. Passengers who do not comply with the entry requirements can expect delays whilst procedures for their situation are worked through. Those travellers who are unsure about their declaration should indicate such before processing starts as there are severe penalties for making a false declaration and penalties for the importation of prohibited goods.
