## MEDIA RELEASE

### TAYLORS ROAD UPDATE

*Photo shows the completed road works when the road was first re-opened again on Thursday, 20 October 2016*

The General Manager of the Norfolk Island Regional Council, Ms Lotta Jackson, would like to thank the community, business owners and visitors for their patience during the road works and temporary road closures on Taylors Road. Ms Jackson would also like to thank the Commonwealth for the funds contributed to allow Council to undertake these works.

The road is now sealed and is open for use by the community. There is only a relatively short stretch of Taylors Road that remains to be upgraded – from outside Paw Paw's Pump Shed to the village entrance. There is money allocated in Council's budget to complete these works this financial year.
