

Norfolk Island Regional Council

MEDIA RELEASE

WHOLESALE FUEL PRICES

There has been a cost increase in the recent fuel shipment to the island as follows (per litre):

\$0.03 cents – Unleaded petrol

\$0.01 cents – Diesel

\$0.09 cents – Jet-A1

In the recent past when supply prices fell the savings were fully passed on to the community through the reduction in the wholesale price.

These increases have been added to the wholesale price and the new wholesale prices are detailed below (per litre):

\$1.40 – Unleaded petrol

\$1.37 – Diesel

\$1.59 – Jet-A1

These prices take effect from the first delivery after 30 October 2016. Electricity prices will not change with this increase.
