

Are you out of water?

In response to the worsening drought conditions and water scarcity on Norfolk Island, the Chair of Emergency Management Norfolk Island is seeking vital information from the community to inform decisions that may have to be made in the context of emergency management.

If you are a household or business currently without water or are likely to run out within the next fortnight, please contact Customer Care on 22244, freecall 0100 or, after hours, 55254.

As no alternative source of water has yet been identified, the sharing of water is still encouraged.

Nigel Greenup

Chair, Emergency Management Norfolk Island (EMNI)
